

Green Building for a Sustainable Future: *Earthen Plasters*

Are you aware that there are alternatives to conventional plasters? Learn how natural plaster can be made from your local soil to form beautiful, functional walls with lower carbon impact.

<p>Presentation and Slide Show: Janine Björnson of <i>clay, bones, and stones</i> is a natural builder, educator, and consultant. She has devoted the last decade to immersing herself in the world of natural materials and the knowledge of how we can shape dwellings that are healthy, healing, inspiring, and beautiful.</p>	<p>Saturday May 17, 2008 7:30 – 9:30 PM Shasta-Hanchett area (call for directions) San Jose, CA 95126</p>
<p>Plastering Workshop: Get your hands dirty mixing and applying plaster to San Jose's first strawbale structure. Earthen plasters can be used on conventional wall surfaces as well as on natural buildings such as strawbale and cob. They add incredible beauty to wall surfaces, are easy to make, and are fun to do! Attendance on both days is highly recommended.</p>	<p>Saturday and Sunday May 17-18, 2008 9:30 AM – 5:00 PM Shasta-Hanchett area (call for directions) San Jose, CA 95126</p>

Saturday evening presentation - free

Weekend workshop including two lunches – free, but space is limited so please RSVP
